OppRadar

# Stop searching. Let opportunities find you.

Scholarships · Jobs · Internships · Hackathons · Funded conferences · International volunteering

For students, graduates, job seekers and professionals

PROBLEM

# Why people miss opportunities

**01** Too many opportunities, scattered across the web and social media.

**02** Hours lost finding the ones that fit your interests and career.

**03** Opportunities found too late, after the deadline has passed.

**04** Busy professionals never hear about great opportunities because they have no time to look.

**Meet Ikbel**

Third-year student

Loves volunteering and hackathons. Sees dozens of Instagram posts, has no time to check eligibility, and misses deadlines.

64 students surveyed at our school, Oct 2026

**95%**

missed an opportunity because they found out too late

**56%**

say finding ones that fit them is hard

**64%**

find opportunities mainly on social media

SOLUTION

# Instead of Ikbel finding opportunities, the opportunities find Ikbel.

01

## She builds her profile once

Uploads her CV, certificates, projects and activities.

02

## The agent works in the background

It scans the web, reads each opportunity, and checks her eligibility.

03

## Only what she qualifies for

She gets an alert, with the reasons why they match.

MARKET

# Start in Algeria. Grow to the world

## Users

students, graduates, job seekers, professionals.

## Payers

users on Premium; later clubs and organizations.

## Why now

AI can now read and judge opportunities for us; more Algerians go online every year (about +5%).

## Next

Algeria → Africa → the world

### Premium for everyone

**1,490 DZD/mo**

- Unlimited checks
- Scans every 30 min
- 5 application drafts
- Priority alerts
- Deep match explanations

### Clubs & Teams

**3,900 DZD/mo**

- Shared saves
- Club dashboard
- Team drafts

**COMING LATER**: Organizations & universities pay to have their opportunities recommended first. Labeled 'sponsored', shown only to eligible users.

**Who pays → What for → How**

Payments not live yet. Integration with Algérie Poste in progress, before launch.

COMPETITION

# Platforms list opportunities. OppRadar finds the ones you can actually get.

| | Social media groups | Job and scholarship sites | General AI assistants (ChatGPT, Gemini) | **OppRadar** |
|---|---|---|---|---|
| **All opportunity types** | ◐ Partial | ○ No (one type each) | ◐ Partial | ● Yes |
| **Personalized to your profile** | ○ No | ◐ Partial | ◐ Only if you re-explain it | ● Yes |
| **Eligibility check with reasons** | ○ No | ○ No | ◐ Partial | ● Yes |
| **Runs in the background, alerts you** | ○ No | ◐ Partial (email alerts) | ◐ Limited | ● Yes |
| **Scam and fake-listing check** | ○ No | ◐ Variable | ○ No | ● Yes |
| **Algerian focus** | ◐ Partial | ◐ Rarely | ○ No | ● Yes |

TEAM

# Design, AI, engineering and user research: one team, one working product.

## Ahlem Toubrinet

UI/UX & graphic designer, AI engineer

Designed the whole interface, design system and brand; built the AI pipeline; set up the repo.

## Riad Doukha

Full-stack developer, marketing strategist, AI engineer

Built the frontend and backend, deployed the app, leads security and documentation, wrote the survey.

## Ikbel Dhif

AI engineer, multimedia strategist

Spread the survey, built the chat assistant, tested the app, recorded the demo.

THE ASK

# Help us take OppRadar from prototype to product.

**01**
Swipe screen (a Tinder-style deck to accept or reject matches)

**02**
Reels feed (alumni and organizers share experiences and announce events)

**03**
Organization accounts and analytics for universities and clubs

**04**
Application help, then applying on your behalf with your approval

**05**
Smarter learning from your feedback

## What we need

investors | mentors | pilot partners (universities and clubs) | cloud and AI credits

Stop searching. Let opportunities find you.
